*We can help you!*

## Dr. Bill Musser, D.C., C.C.W.P.

*Your health is your most valuable asset. With good health, you can comfortably live each day enjoying the people, places and experiences you love. Without good health, everything is a chore. Pain can prevent you from doing simple things that you used to take for granted. Worrying about the pain can be mentally exhausting. Poor health can dramatically interfere with all the things that are important in your life... your family, your work, and your play.*

For nearly twenty years, Dr. Bill Musser, along with his team of wellness professionals, have been helping patients and their families reach their health goals. Our focus is on truly understanding your health concerns, identifying where you are out of balance, and leading you on the path to better health. We provide a warm and caring atmosphere, where **you** are our number one priority.

Dr. Musser doesn't just practice chiropractic care, he lives it. In 1989, he suffered a severe back injury in an auto accident. When traditional

treatments were ineffective and surgery was recommended, Dr. Musser turned to chiropractic for relief from his injuries. Not only did he find relief—he found a career. Dr. Musser now understands that the human body has innate intelligence that naturally strives for balance and wellness. He is dedicated to first identifying where your body is out of balance, and then helping you regain your health... naturally.

Dr. Musser grew up in Lake County and went to undergraduate school at Mount Union College and The Ohio State University. He earned his doctorate in 1992 from the National College of Chiropractic near Chicago, Illinois. More recently, he has become a Certified Chiropractic Wellness Practitioner (C.C.W.P.).

As an expert in health and the emerging concept of wellness, Dr. Musser is on a quest to make a positive difference in his patients' lives by teaching them how to get and stay healthy. He and his caring and dedicated staff look forward to helping you find the good health and wellness that can transform your life into the life you want it to be.

## Our Mission

To improve the health of our patients and our community.

We provide exceptional care in an understanding environment with a knowledgeable team of professionals in the health and wellness field.

Our ultimate goal is prevention by educating our patients and empowering them to adopt a healthy lifestyle.

*Move well, Eat well, Think well  
...creating better health*
